

ORTLIEB DRY-PACK

MULTIFUNCTIONAL DRY-BAG WITH ROLL CLOSURE FOR MOUNTING ON THE LUGGAGE CARRIER

The Dry-Pack is a waterproof, multifunctional pack sack that is perfect for carrying equipment on the luggage rack thanks to the special O-Straps. With a volume of 12 and 16 liters and weighing just 230 and 250 grams respectively, the Dry-Pack is also extremely light. The roll closures on both sides provide access to the contents.

The valve on the Dry-Pack ensures that the contents can be easily compressed and the bag can be fixed to the luggage carrier without wobbling with the help of the O-Straps. The O-Straps with a length of 520 mm and the special clamping hooks (for tube diameters up to 10 mm) are ideal for quick attachment to the luggage carrier. The straps can be variably positioned on the dry pack thanks to the daisy chains. An elastic cord fixation on the top for quick stowage of additional equipment. The Dry-Pack is also sustainably manufactured in Germany.

SPECIFICATIONS:

Material: nylon fabric, PU-coated

Volume: 12 L / 16 L

Weight: 230 g / 250 g

Colors: black matt, dark-sand
