

ORTLIEB BACK-ROLLER DESIGN

WATERPROOF REAR PANNIER WITH ROLL CLOSURE

The Back-Roller design with a special look! The spacious pannier for the rear carrier is available in a designer look in two different styles: Lake and Jellyfish. Cool and straight in look - the function of the ORTLIEB classic is of course retained.

Thanks to the practical Quick-Lock2.1 mounting system with self-closing hooks, the bags can be quickly and easily attached to almost all luggage carriers. The system can be adjusted without tools and the 16 mm hooks can be reduced in size (8, 10 and 12 mm) using the inserts supplied. The lower hook rail is used for additional fixation and has softer contact surfaces, which is particularly gentle on the luggage carrier. Thanks to the rotating Quick-Lock2.1 locking hook, the system can be adapted to practically any luggage carrier.

A fixed inner pocket, consisting of a main compartment and mesh pocket with zipper, keeps everything organized and tidy. The shoulder strap allows the Back-Roller Design to be carried comfortably as a shoulder bag. Tip: With the optional Commuter-Insert accessory or the Packing-Cubes, the Back-Roller Design is always organized. The Back-Roller Design is also sustainably manufactured in Germany.

OPTIONAL ACCESSORIES:

ORTLIEB Commuter-Insert and Packing Cubes help to keep your bag organized.

ORTLIEB bike bag carrying system transforms the bag into a backpack;

Mesh pocket, bottle holder, outer pocket in size S, anti-theft device, 20mm Quick-Lock2.1 fastening hook.
